¹ **January exception:** The January 1st payment will be transferred to your bank on the first business day of the new year. For all other months, payments are generally transferred to your bank on the first business day preceding the first of the month. The transfer date shown reflects when Banner Life transmits the funds; please check with your financial institution regarding when the funds will be available in your account.

Important: If a scheduled payment date falls on a weekend or federal holiday, payment timing may vary depending on your bank or financial institution.

Physical checks are mailed in advance of the scheduled payment date with the expectation that they will arrive by the due date. However, delivery times depend on the U.S. Postal Service therefore, a specific delivery date cannot be guaranteed.

Direct deposit can help ensure funds are received on the scheduled payment date. We encourage annuitants who require timely receipt of payments to enroll in ACH. To enroll, log in to your account or register today through the retirement portal [here](#).
